PROFILE SUMMARY

- Full-stack Web Application Developer with 4+ years of experience building and maintaining scalable applications using Next.js, React, and the MERN stack.
- Proficient in full-stack development, database architecture, and API integration, with a strong focus on clean code, performance optimization, and user experience.
- Experienced in collaborating with distributed teams, leveraging Git, Jira, Slack, and other remote workflows for effective communication and timely delivery.

RELEVANT COURSEWORK

- Web Development (Frontend & Backend)
- Database Systems (SQL & NoSQL)
- Software Engineering & Agile Practices
- Data Structures & Algorithms
- API Design & Integration
- Cloud Computing & DevOps Fundamentals

WORK EXPERIENCE

Full Stack Software Developer (Freelance Projects) | Fiverr   **Jan 2023 - Present**

- Developed and delivered 130+ freelance projects on Fiverr, including full-stack web applications with MERN and Next.js, custom API integrations (auth, payments, third-party services), and database design, while collaborating with international clients across time zones to meet deadlines and ensure high-quality solutions.

Full Stack Software Developer | Automation Services Ltd.   **April 2020 - Jan 2023**

- Developed full-stack web applications using Next.js, React, Node.js, and MongoDB/PostgreSQL, building APIs, optimizing databases, and collaborating with cross-functional teams to deliver scalable solutions.

PROJECTS

Task Management SaaS | *NextJS, TailwindCSS, MongoDB, Prisma* | Live Site   **June 2025**

- A modern task management SaaS built with Next.js, designed to help users organize, track, and prioritize tasks efficiently. Features include intuitive dashboards, real-time updates, and secure database management with MongoDB and Prisma, aimed at boosting productivity and streamlining workflows for individuals and teams.

Interactive Code Editor SaaS | *NextJS, TailwindCSS, MongoDB, Prisma* | Live Site   **Jan 2025**

- A modern task management SaaS built with Next.js, designed to help users organize, track, and prioritize tasks efficiently. Features include intuitive dashboards, real-time updates, and secure database management with MongoDB and Prisma, aimed at boosting productivity and streamlining workflows for individuals and teams.

TECHNICAL SKILLS

Frontend: HTML, CSS, TailwindCSS, Shadcn/ui, JavaScript, React, Redux, Socket, NextJS

Backend: Node.js, Express, Prisma, MongoDB, PostgreSQL, Redis

Languages: JavaScript, TypeScript, Python, HTML, CSS, SQL

EDUCATION

Bachelor of Science in Computer Science & Engineering   **Aug 2016 - Aug 2020**
Green University of Bangladesh
